

Modern luxury

Massively affordable

The life-changing Sun King™ solar lantern.

Hours and hours of light.

The Sun King™ conservatively yields a whopping 16 hours of light from a single sunny day of solar charging: The whole family can cook, walk and study by its bright alight without expensive kerosene or the carcinogenic fumes that accompany it.

Affordable luxury.

Modern technology does not mean maximum prices anymore. For the first time, the Sun King brings a bright, clean light, designed for the needs of the masses.

- * 3X brighter than a 'Hurricane' kerosene lantern
- * Strong, water-sealed lamp and versatile stand
- * Roof-mount solar panel includes 5 meter cord

Superior batteries.

The Sun King sets the gold standard for solar lanterns with its state-of-the-art lithium polymer battery. Unlike lamps using cheaper, short-lifetime lead-acid or Ni-Cd batteries, the Sun King's battery lasts for three to four years, maintenance free.

Revolutionary LEDs.

The Sun King uses high-efficiency light-emitting diodes (LEDs) that do not fuse or require replacement. Our on-site test equipment ensures the quality and efficiency of every Sun King LED batch.

Built to last.

Drop it, stomp it, or splash it. From its water-sealed, nearly unbreakable polycarbonate shell, to its industrial-grade glass laminated solar panel and durable steel stand, the Sun King is built to last in tough locales.
